WELCOME TO PORCELENA

Welcome to PORCELENA, where we redefine the possibilities of design in the construction and architecture industry. As a proud subsidiary of **CRC GROUP**, a renowned leader in construction materials since 1959, PORCELENA continues this legacy of excellence and expertise. Specializing in porcelain tiles, we introduce a new era of innovation and creativity, offering our clients unparalleled options for crafting spaces that inspire.

Innovation : We are committed to pushing boundaries and introducing groundbreaking solutions that redefine the standards of excellence in the industry. Our dedication to innovation drives us to continuously explore new technologies and design possibilities, ensuring that our clients always have access to the latest trends and advancements.

Quality: Quality is the cornerstone of everything we do. From the materials we source to the craftsmanship that goes into each tile, we maintain the highest standards to deliver products that not only meet but exceed expectations. Our stringent quality control processes guarantee durability, longevity, and aesthetic appeal in every tile we produce.

Customer Satisfaction : Our clients are at the heart of everything we do. We prioritize their needs and preferences, striving to provide personalized service and support at every stage of their projects. By listening attentively to their feedback and preferences, we ensure that their experience with PORCELENA is nothing short of exceptional.

Trendsetting : We are trendsetters in the industry, constantly staying ahead of the curve to bring our clients the latest design trends and collections from around the globe. Our curated selection reflects the evolving tastes and preferences of modern consumers, allowing them to stay on the cutting edge of design. We are more than just a tile company. We are partners in your creative journey, dedicated to helping you bring your vision to life. Join us as we pave the way for a new era of innovation and inspiration in construction and architecture.

PORCELENA, where we set the benchmark for design excellence in the construction and architecture industry. As a distinguished subsidiary of the esteemed CRC GROUP, a renowned pioneer in construction materials since 1959, our legacy of expertise and innovation is unparalleled. Specializing in porcelain tiles, we are committed to delivering superior quality and cutting-edge solutions that redefine spaces. With an unwavering dedication to customer satisfaction, innovation, and staying at the forefront of industry trends, PORCELENA stands as your premier partner in elevating design standards.

antibacteriano

antibacterial / antibactérien / antibakteriell

La gran mayoría de bacterias son inocuas para la salud, no obstante, existen algunas dañinas que se pueden propagar en las superficies generando desde malos olores hasta posibles dolencias. Por esta razón, resulta imprescindible llevar a cabo procesos de limpieza exhaustivos, sobretodo en zonas comunes de uso corriente. En respuesta a esta necesidad, se ha desarrollado la serie Method, que, gracias al uso de iones de plata integrados en la masa cerámica, mejora la higiene en la superficie de la misma. En este sentido, también ofrece un valor añadido de protección para los usos más intensos.

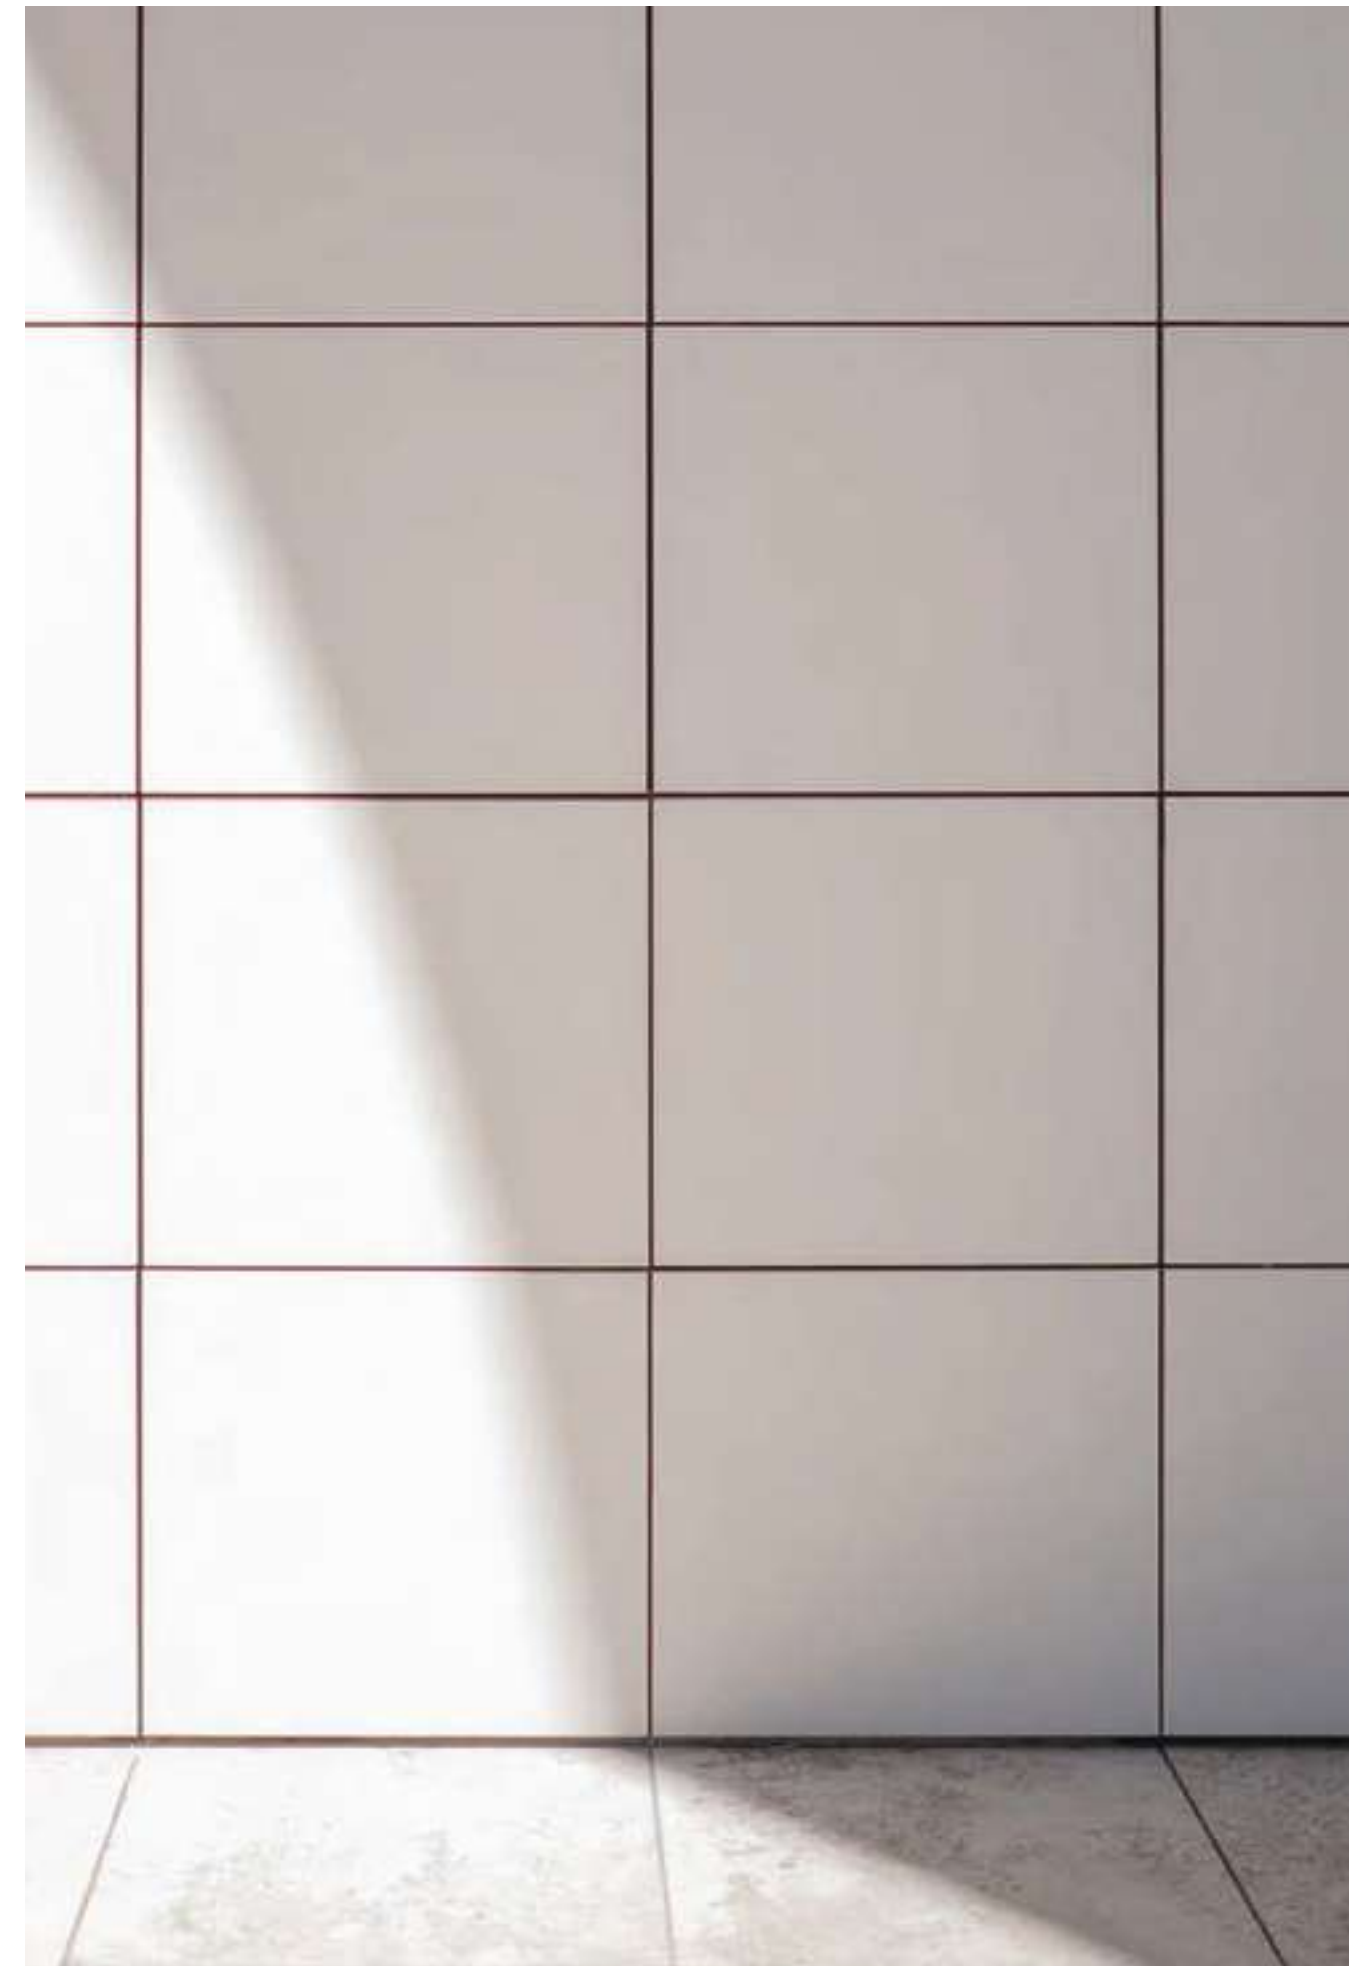

Beneficios :

- Impedimento del desarrollo de microorganismos, por lo que nos protege contra todo tipo de bacterias.
- La eficiencia antimicrobiana se ha determinado según la norma JIS 2801 y el ensayo para la protección antivírica ISO 21702.
- Zonas limpias durante más tiempo, y más fáciles de higienizar debido a sus propiedades antibacterianas.
- Material recomendado para todo tipo de usos y zonas.

The vast majority of bacteria are harmless to health, however, there are some harmful ones that can spread on surfaces generating from bad odors to possible diseases. For this reason, it is essential to carry out exhaustive cleaning processes, especially in areas of common use. In response to this need, we have developed the Method collection, which, thanks to the use of silver ions integrated in the ceramic body, improves hygiene on the tile surface. In this sense, it also offers an extra protection for the most intense uses.

Benefits :

- Impediment of the development of microorganisms, so it protects us against all types of bacteria.
- The antimicrobial efficiency has been determined according to the JIS 2801 standard and the ISO 21702 antiviral protection test.
- Clean areas for longer, and easier to sanitize due to its antibacterial properties.
- Recommended material for all types of uses and areas.
